General Practitioner

My wife and I along with our four kids came to Hawai'i after falling in love with the island life while living in the Carribean.

I grew up in Arizona skateboarding too much, hiking, camping, and snowboarding. I play a little guitar and ukulele, I really like mountain biking, free diving, hiking, and surfing here in Hawaii.

Kauai is the most beautiful place I've ever been, the vistas and rural laid back spirit of the island and people are exactly where I want to be.
